### **Description:**

Assists older Idahoans to continue living independently in their own homes by providing them and their caregivers with a variety of supportive programs and services.

# **Major Functions and Targeted Performance Standard(s) for Each Function:**

- 1. Home and Community-based Long Term Care.
  - A. Through prioritization of services to clients at greatest risk of requiring institutionalized care, 40% of clients served by Case Management will be clients who require assistance with 2 or more Activities of Daily Living (ADLs are bathing, dressing, toileting, transferring, eating, walking).

Actual Results

70%	70%	70%	70%	

## **Program Results and Effect:**

The Idaho Commission on Aging (ICOA) administers federally funded programs under the Older Americans Act of 1965 and state funded services for elderly Idahoans. The mission of ICOA is to promote and enhance the quality of life, dignity, and independence of Idaho's seniors and to meet their needs within the maximum extent of their ability, choice, and benefit. To meet that objective, ICOA provides the elderly and their families with a full compliment of supportive home and community-based services. The alternative to these programs would be to place seniors in very costly nursing homes or other residential care options. This approach is neither favored by the elderly nor economically sound. With projections of continued increases in the population of Idaho seniors at risk of institutionalization, the cost of providing services will escalate. We can minimize the impact on taxpayers by funding community-based services appropriately.
